Abstract

With the support of the Thanksgiving Scholarship donated by Dr. S. Y. Tang, two educational psychology trainees, Angela and Yuen Pui, participated in an overseas training attachment at Western Kentucky University (WKU) for two weeks in October 2019. Thanks for the arrangement by the faculty at WKU and school psychologists from various school districts, Angela and Yuen Pui were able to shadow the work of school psychologists serving at different school districts and attend several training sessions for school psychology students at WKU. This attachment allowed Angela and Yuen Pui to learn more about the latest development of school psychology services in the United States. They are delighted to share their learning experience and insights gained from the overseas training attachment with other educational psychologists in Hong Kong.
